Automatic Door Inspection and Preventative Maintenance Plan

Our company is here to help make sure your door(s) follow the compliance of ANSI Safety Codes:

- ✓ 156.10- Standard for Power Operated Pedestrian Doors encompassing automatic sliding, swinging and folding doors.
- ✓ 156.19- Standard for Power Assist and Low Energy Power Operated Doors encompassing doors that operate at a slow speed with low power and can be remotely activated by a push switch/ plate or other remote activation device.

One of our AAADM Certified Inspectors will evaluate your door(s) for the following:

- | | |
|-------------------------------------|-------------------------------|
| ✓ Safety and Motion Sensor Function | ✓ Rollers and Guides |
| ✓ Opening and Closing Speeds | ✓ Hold and Reverse Check |
| ✓ Emergency Breakout Pressure | ✓ Belt Tension and Condition |
| ✓ Motor and Gearbox Operation | ✓ Weather Seals |
| | ✓ Access Integration Function |

After evaluating your door(s), the inspector will provide an inspection form pass or fail and can provide a quote to make necessary repairs, to comply with the ANSI Safety Codes to pass inspection.

Our preventative maintenance and inspection prices are:

- ✓ \$250.00 for the first door
- ✓ \$125.00 for every door after the first
- ✓ You will also receive discounts on parts and labor for repairs
